## Hawaiian Gazette.

TUESDAY, JULY 13, 1886.

### HAWAIIAN LEGISLATURE.

SESSION OF 1886.

FIFTY-FOURTH DAY.

TUESDAY, July 6.

The Assembly convened this morning at 10 o'clock pursuant to adjournment from the 3rd inst. After the conclusion of the usual preliminary business the following petitions were presented:

By Representative Nahinu, from the district of South Kona; 1, if either wife or husband contracts leprosy and one is sent to Kalawao, the remaining party be declared free to marry again without further proceedings. To Judiciary Committee: 2, that \$1,500 be appropriated for repairing and renovating the English school at Hookea. To Committee having special education items in charge.

By Representative Paehaole, from Lanai; 1, that a Postmaster be appointed for the island of Lanai; 2, that an Hawaiian be appointed Road Supervisor for that island; 3, that the Tax Appeal Board for Molokai and Lanai hold one sitting on Lanai; 4, that Hawaiians living on Government lands have the privilege of buying the same. To Committee on Public Lands.

By Representative Wight, from North Kohala; 1, that \$10,000 be appropriated for the roads and bridges of that district; 2, that the place of holding the Circuit Court be changed from Waimea to Kohala; 3, that \$5,000 be appropriated for repairs to Kohala court house; 4, that no debt be collectable after thirteen months, by the Government; 5, that no loan of \$10,000,000 or \$5,000,000 be made; 6, that no law authorizing the sale or importation of opium be made; 7, that no subsidy be granted to any line of steamers; 8, that the distillation of *okolehau* be licensed to natives only, on payment of \$25; 9, that no appropriation be made for a Hawaiian man-of-war; 10, that no appropriation be made for crowning His Majesty as Emperor of the Pacific; 11, that the appropriation for the military be reduced; 12, that \$3,000 be appropriated for the Female Seminary at Kohala. Laid on the table.

By Representative Kananamano from Hamakua; 1, That the office of Road Supervisor-in-Chief be abolished; 2, That a Board of Road Commissioners be appointed in each district; 3, That the road tax collected in each district be paid into the Governor's office. Tabled for consideration with bills on the subject.

By Representative Kekoa from the district of Puna; 1, That four new constables be appointed for the district; 2, that the Government supply the Deputy Sheriffs with postage stamps to be kept on sale. To committee on Public Lands.

By Representative Thurston from the district of Kananapa; 1, That no settlement be made on Government officers, because they have been well paid while in office. Tabled to be considered with the settlement bills; 2, That a truant policeman be appointed in the district. Referred to Committee on Public Lands. 3, That the Indemnity bill be indefinitely postponed, and the Ministers ordered to refund the money into the Treasury. To Finance Committee.

By Representative Ahole from Lahaina, that people engaged in the cultivation of sugar be required to fence their plantations in. To Committee on Public Lands.

Representative Wight tendered his resignation as a member of the Committee of Finance. He stated that his reason was that he considered the action of the House on Saturday to have been uncourteous and unjust to the minority of the committee for doing what they considered to have been their duty. The other members of the committee acknowledge the correctness of the minority's report, but did not sign it because they did not consider the committee should report piece-meal, and perhaps also because it was regarded as an animadversion on one of the members of the Cabinet. The minority ought not to be altogether guided by the majority in what they considered to be their line of duty. They had not asked for immediate action to be taken on the report, but they considered the action of the Government so utterly unconstitutional that it behooved them to bring it to the attention of the House at the earliest opportunity. The reports of this committee ought to have been before the House long before that, and would have been had the other members been as regular in attendance as the minority.

Representative Ahole, Chairman of the Committee, moved that the request be not granted. The bulk of the committee's work was done. He knew that Rep. Wight had been very punctual, always there at the hour of meeting. He was very sorry that the Hon. member had asked them to excuse him. Perhaps it was a mistake to move that the report should be returned.

Representative Kalua was in favor of granting the request of Rep. Wight. When the motion to return the report was made the speaker did not understand that its idea was to censure the minority, but that the majority were not in favor of bringing in the report a little at a time. The Minister of the Interior in a loud voice and with violent gestures like a hula dancer, supported the motion to lay the report on the table, and then voted against it. The Ministers should not play with the Assembly in that way. If a man spoke one way he should vote the same way. The members did not want a man there with two tongues. When he made a motion, he spoke in favor of it, and voted in the same way. The Minister of the Interior seconded his motion, spoke in favor of it, and voted against it. This reminded him of a fish of the squid family, that ran first one way and then another, so that it could not be known where his head was. (Laughter.)

Representative Wight thanked the members for their good opinions regarding him, but flattered as he might be he did not feel inclined to withdraw his resignation for the reasons that he had stated. On motion his resignation was declared accepted.

Hon. C. R. Bishop presented the following majority report from the Committee on Education, to whom was referred an Act to amend section 3, of chapter 44, Session Laws of 1884, intended to release from payment of tuition all over two, instead of three, pupils sent to schools taught in the English language by any one person or guardian, introduced by Hon. A. Kaula, and also three petitions, praying that such schools may be made entirely free, presented by Hon. J. K. Kananamano and Hon. E. Kekoa respectively, report as follows: The amount appropriated for schools, compared with the whole revenue of the country, is much larger in proportion than in any other country that we know of, and the school tax (a large part of which is paid by a class which almost receives no advantage from it) is now a large sum. The schools in question were established at the earnest request of the people, with the understanding that their increased cost over those taught in the native language would be borne in part by the patrons thereof.

The cost of such schools for teachers, and also for school houses, is much higher than it is in the United States or in England, and they are kept open during the larger part of the year than they are outside of the cities and larger towns of the countries named. Under the present law all over three pupils in any family, however large, may go on free, and the Board of Education has power to remit tuition in favor of any who are too poor pay, so that none can be excluded from the advantage of schooling on account of inability to pay. In former times, when the Hawaiians were poor and did not so fully appreciate good schools as they do now, they were aided largely by contribution from other countries, but now they should rely upon their own resources. A thing of such great value as the privilege of such a good school for our children is worth paying for, and when it is furnished at so much less than its cost, as is the case here, those who can pay should be required to do so. A many and self-reliant spirit should be inculcated in the young people and fostered in those of riper years. The habit of expecting and receiving things of value without making a fair return either in money or labor tends to pauperization and a mean spirit which should be constantly guarded against. The amount collected for tuition during the last two years was about \$20,000, a sum which cannot be surrendered conveniently at the present time, for it will be wanted in providing new schools in several districts now calling for them. To do away with the charge would receive a large number who are able and willing to pay, and would not help the education at all. In view of the facts and reasons above stated, we cannot favor the passage of the Act submitted to us, and therefore recommend to the Assembly to lay it on the table and the petition upon the table. Respectfully submitted. CHAS. R. BISHOP, L. A. THURSTON, S. W. KAAI, E. KEKOA.

Having brought in the Act above referred to, out of regard for the wishes of some of the people of Koolapoko. I cannot concur entirely in the foregoing report.

On motion the report was laid on the table to be considered with bills on the subject.

The Minister of Interior stated, in answer to a resolution to the House, that the Ministers had prepared their several reports of the obligations of the Government. The Minister of Foreign Affairs, the Minister of Finance and the Attorney General would present their reports complete, but he was sorry to say the report of the Minister of Interior (his own) was not complete. The indebtedness of the Interior Department was about \$104,808. The reason his report was not complete was owing to several small accounts not having come in, and it was necessary to wait the arrival of the island mail for them. There are some other items of indebtedness that he could mention from other departments, such as the Board of Education, which was \$1,495.14, and the Board of Health, \$6,601; but in two or three days, he could report more fully.

The Minister of Foreign Affairs presented a return of the indebtedness of the Department of Foreign Affairs, comprising debts dating back to December, 21, 1882, the amount being \$12,353.69.

The Minister of Finance presented a return of the indebtedness of the Department of Finance, which amounted to \$1,218,544.55.

The Attorney General presented a return of the indebtedness of that Department, which was a total of \$1,483.50—to the end of March, and \$539.23 belonging to the current period.

On motion of Representative Thurston the reports were all received and ordered to be printed.

At 12:10 the Assembly took a recess until 1:30 p. m.

AFTERNOON.

On re-assembling at 1:30, Rep. Richardson from the Engrossing Committee reported the bill relating to the "Obstruction of Streets" as being finally finished.

Representative Dickey gave notice of an amendment to article 20 of the Constitution, relating to the eligibility of Justices to Legislative positions. Also that he would to-morrow, propound the following question to the Minister of Finance: "Have you paid the Japanese Inspector \$250 since you took a seat in His Majesty's Cabinet, and if so by what authority?"

that ran first one way and then another, so that it could not be known where his head was. (Laughter.)

Representative Wight thanked the members for their good opinions regarding him, but flattered as he might be he did not feel inclined to withdraw his resignation for the reasons that he had stated.

On motion his resignation was declared accepted.

Hon. C. R. Bishop presented the following majority report from the Committee on Education, to whom was referred an Act to amend section 3, of chapter 44, Session Laws of 1884, intended to release from payment of tuition all over two, instead of three, pupils sent to schools taught in the English language by any one person or guardian, introduced by Hon. A. Kaula, and also three petitions, praying that such schools may be made entirely free, presented by Hon. J. K. Kananamano and Hon. E. Kekoa respectively, report as follows: The amount appropriated for schools, compared with the whole revenue of the country, is much larger in proportion than in any other country that we know of, and the school tax (a large part of which is paid by a class which almost receives no advantage from it) is now a large sum. The schools in question were established at the earnest request of the people, with the understanding that their increased cost over those taught in the native language would be borne in part by the patrons thereof.</
